Railroad Transfer Service, Inc., Appellant, v. *City of Chicago et al.,* Appellees, Case No. 14479. The United States Court of Appeals, 7th Circuit, on July 20, 1964 vacated the judgment in the above entitled cause and remanded the case for further proceedings. (The case involved the City's Public Passenger Vehicle Ordinance, which was upheld in the trial court as it applied to the Appellant, which is engaged in the business of carrying railroad passengers from one railroad station to another. The Court's opinion stated that the ordinance was amended while the case was pending in the trial court and the trial judge was not informed of such amendment.)

McQueen, et al., v. *Richard J. Daley, et al.,* Case No. 49883. The 1st Division of the Illinois Appellate Court on July 23, 1964, dismissed without opinion the appeal in the above entitled cause because of the late filing of Notice of Appeal by the plaintiffs. (This was an appeal from an election contest in the 69th Precinct of the 8th Ward in the City of Chicago in which the following issue was resolved in the affirmative "Shall the sale at retail of alcoholic liquor containing more than 4% of alcohol by weight *except in the original package* not for consumption on the premises be prohibited in the 69th Precinct of the 8th Ward of the City of Chicago?")

City of Chicago, a Municipal Corporation, Plaintiff-Appellee vs. *Supreme Savings and Loan Association,* a corporation, *E. N. Radford and Mary Gales,* defendants. On appeal of Supreme Savings and Loan Association, a corporation, Defendant and Counter-Plantiff-Appellant—Appellate Court Case No. 49417. The Illinois Appellate Court, 1st District, on August 31, 1964 filed an opinion in the above cause affirming the decree of the Superior Court of Cook County. (It held that the demolition lien of the City of Chicago against the premises located at No. 2638 W. Homer Street is superior to prior encumbrances on the subject premises including prior existing liens. The Illinois Appellate Court held that the statute existing at the time of the creation of the demolition lien which gave the City a superior lien governs even though another statute existed at the time which purported to give the City a subordinate lien, etc.)

3. Alterations. Lessee shall make no changes, alterations, additions or improvements, or do any work in connection therewith in, on or about the premises without the prior written consent of the Lessor.

4. Entry and Inspection. Lessor shall have the right to enter upon and inspect the premises from time to time during the term hereof and, upon reasonable notice to Lessee, to make any repairs deemed necessary by the Lessor without abatement of rent; provided, however, that Lessor shall not, during the course of any such inspection or repairs, unreasonably interfere with the Lessee's use and enjoyment of the premises.

During the last thirty (30) days of the term hereof Lessor shall have the right to exhibit the premises and to place "To Let" signs in, on and about the premises.

5. Service Furnished by Lessor. The Lessor shall furnish adequate water, heat and electricity for lighting purposes. In addition, the Lessor shall furnish elevator and other Building services to Lessee, its employees and invitees to the extent that elevator and such other Building services are available to other tenants of the Building and are a necessary or desirable incident to Lessee's use and enjoyment of the premises.

Lessor assumes no liability to Lessee for failures or interruptions of any and all services or utilities furnished to Lessee hereunder when due to causes beyond the control of Lessee including but not limited to floods, fire and power failures.

6. Care of Premises by Lessee. Lessee shall keep the premises in a safe, neat, clean and presentable condition at all times and promptly repair any damage occasioned by Lessee, its agents, servants, employees or invitees.

7. Care by Lessor. Lessor shall keep the Building in a safe, neat, clean and presentable condition, making all structural repairs thereto and performing all maintenance thereof required to keep the premises in a tenantable condition.

8. Indemnity. Lessee shall indemnify the Lessor from and against any and all claims, demands, causes of action, suits or judgments (including costs and expenses incurred in connection therewith) for deaths or injuries to persons or for loss of or damage to property arising out of or in connection with the use and occupancy of the premises by Lessee, it agents, servants, employees or invitees and not caused by Lessor's negligence. In the event of any claims made or suits filed, Lessor shall give Lessee prompt written notice thereof and Lessee shall have the right to defend or settle the same to the extent of its interest hereunder.

9. Abandonment. Lessee shall not vacate or abandon the premises at any time during the term hereof, and if the Lessee shall so vacate or abandon, any property of the Lessee left on the premises shall be deemed to have been abandoned and may either be retained by the Lessor as its property or may be disposed of at public or private sale as the Lessor sees fit. If any such property of the Lessee or any part thereof is sold at public or private sale or retained by the Lessor, the proceeds of any such sale or the then current fair market value of the property, as the case may be, shall be applied by Lessor against Lessor's expenses of removal, storage or sale, the arrears of rent or future rent payable hereunder and any other damages to which the Lessor may be entitled hereunder.

10. Bankruptcy of Lessee. In the event Lessee shall file a voluntary petition in bankruptcy, make assignment for the benefit of creditors of all or substantially all of its assets, or fail to secure dismissal of an involuntary petition in bankruptcy within sixty (60) days after the filing thereof, then Lessor may terminate this lease upon five (5) days' written notice to Lessee.

11. Default of Lessee. If the Lessee shall refuse, neglect or fail to perform, observe and keep any of the covenants, agreements, terms or conditions contained herein on its part to be performed, observed and kept and such refusal, neglect or failure shall continue for a period of thirty (30) days after written notice to Lessee by Lessor thereof (except in the case of non-payment of rent wherein if such failure, neglect or refusal shall continue for a period of five (5) days after written notice to Lessee from Lessor), then Lessor may enter into and upon the said premises and repossess the same as of the former estate of the Lessor and expel the Lessee and those claiming under and through it and remove Lessee's effects (forcibly if necessary) without being deemed guilty of trespass and without prejudice to any and all rights and remedies for arrears of rent or breach of covenant. Upon entry as aforesaid, this lease shall terminate, provided, however, that Lessee shall remain liable to Lessor for damages suffered by Lessor including, but not limited to, unavoidable loss of rent for the remainder of the term incurred as a result of such termination.

Lessor's waiver of any default or breach by Lessee hereunder, including acceptance of rent, shall not be deemed a waiver by Lessor of any subsequent default or breach by Lessee hereunder.

12. Default of Lessor. If the Lessor shall refuse, neglect or fail to perform or observe any of the covenants, agreements, terms or conditions contained herein on its part to be performed, observed and kept for a period of thirty (30) days after written notice to Lessor by Lessee, then Lessee may terminate this lease and vacate the premises without further liability to Lessor for rent hereunder; provided, however, that Lessor shall remain liable to Lessee for damages suffered by Lessee as a result thereof.

Lessee's waiver of any default or breach by Lessor hereunder shall not be deemed a waiver by Lessee of any subsequent default or breach by Lessor hereunder.

13. Assignment, Encumbrances and Subletting. Lessee shall not assign, pledge, mortgage or otherwise encumber this lease or the premises covered thereby. Lessee shall not sublet the premises or any part thereof without the prior written consent of the Lessor first had and obtained.

It is understood that consent of the Lessor to any subletting in one instance shall not constitute consent of the Lessor to any other subletting.

14. Holding Over. If the Lessee continues in possession of the premises after the term of this lease has expired, Lessee shall, at the option of Lessor, become a tenant from month to month under and upon the covenants, agreements, terms and conditions herein set forth. Any such hold-over tenancy may be terminated by either Lessor

or Lessee upon the giving of not less than thirty (30) days' prior written notice of intention to terminate from one party to the other party hereunder.

15. Surrender of Premises. Upon termination of this lease by lapse of time or otherwise, Lessee shall remove itself and all trade fixtures, furnishings, property, equipment or machinery installed or placed by Lessee in and upon said premises; provided, that Lessee shall, at its own expense, repair any damage occasioned by such removal. Lessee shall upon termination of this lease surrender the premises to Lessor in the same condition as received (except for alterations, changes, or additions consented to by Lessor), ordinary wear and tear, loss, damage, or destruction by earthquake, flood, fire, riots, insurrection, the public enemy, the elements, acts of God or other conditions or causes above and beyond the control of Lessee being excepted.

16. Rules and Regulations. Lessee shall faithfully observe and comply with reasonable rules and regulations of the Lessor, not inconsistent with the provisions of this lease, promulgated hereunder and communicated in writing to Lessee, necessary for the reputation, safety, care or appearance of the Building, or the preservation of good order, the operation or maintenance of equipment or the comfort of other tenants therein.

17. Successors. The terms, covenants, agreements and conditions herein contained shall apply to and be binding upon the heirs, successors, executors, administrators and assigns of the parties hereto, provided, however, that this provision shall not in any way affect the requirements set forth in Section 13 hereof.

18. Damage or Destruction of Premises. If the premises or the Building shall be so damaged or destroyed by fire, flood, earthquake, the elements, casualty, war, riot, public disorder, acts authorized or unauthorized on the part of the Government or any other cause or happening so as to render the premises untenantable, this lease shall terminate and any unearned rent paid in advance shall be refunded to Lessee.

In the event of partial damage or destruction of the premises or the Building, the same shall be promptly restored by Lessor to their previous condition and a just portion of the rent, to the extent, if any, that the premises have been rendered untenantable, shall abate until the premises or the Building have been so restored. Lessor may elect by notice in writing to Lessee, within thirty (30) days of such partial damage or destruction, to restore the premises or the Building and if the Lessor fails to make such election or, having done so, fails to effect restoration within a reasonable time, Lessee may cancel and terminate this lease upon not less than five (5) days' written notice to Lessor.

19. Signs. Lessee shall not erect, install or place any signs on or about the demised premises without Lessor's prior written approval.

20. Ingress and Egress. Lessee, its employees, visitors and suppliers of material and services shall have full and free right of ingress and egress to and from the premises and to and from the Building subject to rules and regulations of the Lessor as herein provided.

21. Notices. All notices given or required herein shall be deemed sufficient if sent United States mail, postage prepaid, to the addresses of the Lessor and the Lessee specified in this lease, unless either party hereto shall specify to the other party a different address for the giving of such notice.

22. Endorsements to Supersede. In the event of a conflict between any Endorsement and other provisions of this lease, it is understood and agreed that the Endorsement shall supersede and control.

23. Quiet Enjoyment. So long as Lessee performs and observes all of the covenants, agreements, terms and conditions hereof on the part of Lessee to be performed and observed, Lessor covenants that Lessee shall peacefully have and enjoy the premises without hindrance or molestation by Lessor or those claiming under it or by any other person lawfully claiming the same.

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Mayor and the City Clerk are hereby authorized and directed to execute for and on behalf of the City of Chicago an agreement between the City of Chicago and the Chicago Park District, whereby the Chicago Park District grants to the City the right to construct a highway interchange between the Southwest Expressway and S. Lake Shore Drive in and across the property of the Chicago Park District as shown on Exhibit "A" of said agreement, substantially in the form as follows:

AGREEMENT

SOUTHWEST EXPRESSWAY — F.A.I. ROUTE 55
CHICAGO PARK DISTRICT

This Agreement, made and entered into this ..... day of ....., A.D. 1964, by and between the City of Chicago, a municipal corporation of Illinois, hereinafter sometimes referred to as "City", and the Chicago Park District, a municipal corporation of Illinois, hereinafter sometimes referred as "Park District";

Witnesseth:

Whereas, City, the County of Cook, and the State of Illinois are engaged in the construction and financing of the Southwest Route of the Comprehensive Superhighway System of the City of Chicago (hereinafter sometimes referred to as "Southwest Expressway"), as shown on the general plans and drawings of an ordinance passed by the City Council of the City of Chicago on July 11, 1959, as amended; and

Whereas, it is necessary for City to acquire an easement in certain property of Park District in connection with proposed construction of said Southwest Expressway and its interchange with South Lake Shore Drive in the vicinity of 25th Street, all of which is sometimes hereinafter referred to as the "improvement"; and

Whereas, a part of Park District's property required for the construction of the improvement is subject to a certain forty (40) year lease between Park District and the Metropolitan Fair and Exposition Authority, a municipal corporation of Illinois (hereinafter sometimes referred to as "Authority"), dated March 31, 1956, as amended; and another part of Park District's property required for the construction of the improvement is subject to a certain permit agreement between Park District and Authority dated August 12, 1958; and

Whereas, the Southwest Expressway is a part of the national system of interstate and defense highways authorized by Act of Congress dated August 27, 1958 (Title 23 USCA, Sections 101 et seq.) which provides that the construction of such system of highways is in the interest of national defense and that the United States Government shall reimburse the states for certain portions of the cost thereof; and

Whereas, in the interest of the public safety, convenience and necessity it is necessary to complete the construction of the Southwest Expressway and this improvement and to acquire the property necessary therefor without delay;

Now, Therefore, in consideration of the premises and of the mutual promises hereinafter contained, the parties hereto agree as follows:

Section 1: In consideration of the sum of $10.00, the receipt and sufficiency of which is hereby acknowledged, and other good and valuable considerations, Park District hereby grants and conveys to City an easement in perpetuity for a highway interchange between the Southwest Expressway and South Lake Shore Drive, and for the construction, reconstruction, operation, repair and maintenance of the Southwest Expressway inter-

change with South Lake Shore Drive, and appurtenances thereto, and for all street and highway purposes in, through and upon all of the property designated "permanent easement Park District", on Exhibit "A" attached hereto and incorporated herein by reference. The premises within which the aforesaid easement is granted is sometimes hereinafter referred to as the "highway easement space".

Section 2: Permission and authority is further granted City to use the additional adjacent property of Park District designated "temporary construction easement" on said Exhibit "A" for and in connection with City's work of constructing said improvement during the period of construction only. City shall require its contractor (or contractors) upon final completion of the construction of the improvement to restore all of the aforesaid property within the temporary construction easement to its original condition prior to the commencement of City's use thereof, or to a condition satisfactory to Park District.

Section 3: Park District agrees that within 90 days after the execution of this agreement Park District will use its best efforts to secure the amendment of its forty (40) year lease with Authority dated March 31, 1956, as amended, and the amendment of that certain permit agreement between park District and Authority dated August 12, 1958, to delete from said lease and permit agreement the property of Park District within the highway easement space. Park District will further within said period use its best efforts to secure the subordination of the rights of Authority under said lease and permit agreement to the rights of City granted herein to the property within the temporary construction easement. If Park District shall be unsuccessful in obtaining such amendment and subordination within such 90 day period, City shall proceed to acquire the property rights of Authority in accordance with the eminent domain laws of the State of Illinois.

Section 4: City agrees to construct the improvement within the highway easement space substantially as shown on Exhibit "A", and in accordance with the plans and specifications of City entitled "S. Lake Shore Drive - Southwest Interchange, Section SW-1818,6-2P, FAI Route 55, Project I-55-7(60)-289", which plans and specifications shall be subject to approval of Park District. City shall also construct the service drive immediately to the East of the highway easement space shown in Exhibit "A" in accordance with the aforesaid plans and specifications.

Section 5: City agrees to construct and complete, or cause to be constructed and completed, at no expense to Park District, the entire improvement and all appurtenances thereto, together with the service drive which lies to the East of the highway easement space. All work affecting the property of Park District shall be awarded by City to a competent contractor (or contractors) experienced in such work and having adequate equipment, organization and finances to do the work safely and effectively.

Section 6: City further agrees, at its cost, to fill in approximately 14.5± acres, more or less, of Lake Michigan adjacent to Park District property and to construct along the entire shore line of such filled in property a dock wall (such dock wall to be of substantially the same character as is presently located along Park District's property in the vicinity of the area to be filled in). The area to be so filled in is shown on Exhibit "A" attached hereto. City agrees that such area shall be filled with proper fill material and to a level equal to the surrounding grade of Park District's adjacent property. Such fill shall be completed by City prior to the start of construction of the interchange between Lake Shore Drive and the Southwest Expressway.

Section 7: City agrees to permit Park District or its assignees to use the portion of the highway easement space East of Northbound South Lake Shore Drive, including the portion thereof lying under the Northwest Ramp, as a parking area (such area being shown on Exhibit "A"), subject to such restrictions, if any, as may be imposed thereon by the regulations or requirements of the Bureau of Public Roads of the U. S. Department of Commerce. City shall restore the surface of Park District's said parking area together with any portions of the parking area outside of the highway easement space damaged in connection with the construction of this improvement prior to completion of the construction of the improvement to a condition equal to that of the adjacent parking area of Park District. City shall surface for parking an area to be designated by Park District on the land being filled in for Park District pursuant to Section 6 hereof, such new parking area to be equal to the area presently surfaced for parking included within the highway easement space (shown designated "existing parking area included in permanent easement" on Exhibit "A"), and on which parking will no longer be permitted because of construction of the improvement. Such parking surface to be constructed on the filled in land by City shall be as provided in the plans and specifications and shall be completed prior to the start of constructino of the interchange between Lake Shore Drive and the Southwest Expressway.

Section 8: Before the commencement of any work under this Agreement, City shall require its contractor (or contractors) to procure on his own behalf and on behalf of Park District public liability and property damage insurance which will protect and save harmless Park District as stated therein. Limits of liability of said contractor's (or contractors') protective insurance shall be $250,000.00 for each individual and $500,000.00 for each occurrence with respect to bodily injury or death; and $250,000.00 for each occurrence with an aggregate of $500,000.00 for the term of the policies with respect to property damage, including physical damage to Park District property. Such insurance shall be with a company, or companies, licensed by the State of Illinois and shall remain in full force and effect during the period of construction and until completion of the work and thereafter as respects occurrences and losses which are caused or occur within the period aforementioned.

Section 9: After the award of any contract or contracts for the construction of the Southwest Expressway across the property of Park District and before the work is started on this project a conference shall be held by the City and Park District and the contractor (or contractors) at a time and place to be designated by the City for the purpose of coordinating the work to be performed; at which meeting a tentative schedule of operations shall be adopted and measures agreed upon to meet Park District's requirements for the protection of their facilities. Additional conferences will be held as the work progresses and the need arises. City agrees that at no time during the construction of the work herein contemplated shall access to Authority's property or facilities be cut off.

Section 10: After the construction of the improvement City shall, at its own cost and expense, maintain and repair the entire improvement and all appurtenances thereto located within the permanent easement space. City will not be responsible for the maintenance or repair of the service drive to be constructed by City which lies to the East of South Lake Shore Drive, nor shall it be responsible for the maintenance or repair of any other facilities or improvements located on Park District property outside of the permanent easement space.

Section 11: This Agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

In Witness Whereof, the parties hereto have caused this Agreement to be executed by their proper officers thereunto duly authorized as of the day and year first above written.

[Signature forms and Exhibit "A" omitted]

The City agrees not to carry on any work in connection with the installation, maintenance, repair, revision, or renewal of said water main or fire hydrants underneath or in dangerous proximity to any railroad track at the above-described location unless an authorized representative of the Railway Company shall be present. The City also agrees to notify the Chief Engineer of the Belt Railway Company of Chicago a minimum of ten (10) days in advance of the installation or maintenance of the said water main or fire hydrants.

The City agrees that before and during the installation, construction, maintenance, repair or renewal of said water main or fire hydrants, the Railway Company shall have the right to provide such safe and temporary structures as it may deem necessary for the safety and preservation of its track or tracks and the City agrees to pay to the Railway Company the entire cost of installation and removal of such temporary structures and of restoring the property of the Railway Company to the same condition in which it was prior to the commencement of said work. During the time of construction, maintenance, repair or renewal of said water main or fire hydrants, the City agrees to properly police the same and to maintain lights at night in and about the excavations and tunnels as may be necessary or as it may be requested so to do by the Railway Company.

The City agrees that if, at any time, the Railway Company shall change the location or grade of its track or tracks, now or hereafter laid at said point

of crossing or any future point of crossing, or shall desire to use its point or points for any purpose whatever, it will change the location or depth of said water main or fire hydrants, if such change shall be made necessary thereby, without cost or expense to the Railway Company; and if the City shall fail, neglect or refuse to make such change for a reasonable period of time after the receipt of written notice from the Railway Company, then the Railway Company may forthwith make such change in location or depth at the expense of the City and the total cost thereof shall be paid by the City immediately upon receipt of a statement.

The said water main and fire hydrants shall be at all times maintained by the City in an entirely secure, safe and sanitary condition. The City shall be charged with all duty, liability and obligation as to the due and proper construction, maintenance, repair, use and operation of said water main and fire hydrants according to the terms of this agreement.

The City agrees, in all respects, fully to indemnify, save and keep harmless the Railway Company, its agents and employees, and its tenants, licensees, and agents and employees of such tenants and licensees, from any and all expense, liability, loss or damage arising from loss or damage to property, including, but not limited to, property of the Railway Company and to property of their tenants and licensees, and to the property of others in its possession as common carriers, or otherwise, or from injury to or death of persons, including but not limited to, employees of the Railway Company, and of their tenants and licensees in any manner caused by or growing out of the construction, installation, presence or removal of said water main or fire hydrants and connecting pipes on the property of the Railway Company, or on property adjoining the same.

The Railway Company agrees to notify the City at once of any notice, summons or litigation notice served upon said Railway Company in order that the City may promptly take steps to defend same under the terms hereof.

Should the City determine to permanently discontinue maintaining and using said water main or fire hydrants at the above-described location, such determination shall constitute an abandonment thereof and of the permission herein granted and the City shall promptly notify the Chief Engineer of the Belt Railway Company of Chicago of such determination; and thereupon the City, at its own expense, shall proceed to take up and remove said water main and fire hydrants from the Railway Company's property and restore said property to its original state or, with the consent of said Chief Engineer, may disconnect said water main at the point where it enters and leaves the property of the Railway Company and abandon it in place.

This agreement and all of the terms, conditions, rights and obligations herein contained shall inure to, and be binding upon the parties hereto, their successors, lessees and assigns, but it is distinctly agreed that the City shall not assign its rights under this agreement without the written consent of the Railway Company first had and obtained.

In Witness Whereof, the parties hereto have caused this agreement to be duly executed this .....day of....., A.D. 1964.

Placed on File—ANNUAL REPORT OF COMMITTEE ON LOCAL TRANSPORTATION.

The Chairman of the Committee on Local Transportation submitted the following communication, which was, together with the committee's annual report transmitted therewith, *Placed on File:*

Honorable Richard J. Daley, Mayor, and Members of the City Council:

GENTLEMEN—The Committee on Local Transportation herewith submits its annual report of activities in the field of mass transportation for the year 1963.

The principal concern of the Committee and its Staff is service rendered by the mass transportation agencies and the implementation through legislation of the ways and means of providing the best service possible.

The Staff, after thorough study and analysis of proposed legislation requested by the City Council or any other group or individual, is active in the preparation of recommendations to the Committee in all matters relating to local transportation.

Chicago Transit Authority, being the principal local transportation agency in Chicago, the Committee activity is directed principally to the operations of that body.

Monthly meetings between a representative of the Committee Staff and the C.T.A. Board continue. An agenda of items to be discussed is compiled by the Committee's Engineer, Ralph F. Gross; this procedure is very effective in the solution of transportation problems of all concerned.

Railroads continue to petition the Illinois Commerce Commission for suburban service curtailment on grounds of financial difficulties due to increasing loss of patronage as a result of competition from other modes of transportation, principally private automobiles and suburban buses in newly constructed parallel expressways. The Staff is called upon to present data at these and other hearings involving changes which are regarded as inimical to the interests of the riding public.

The Staff continues to participate in the Cordon Count, which is a survey conducted under the auspices of the City Traffic Engineer to determine the flow of vehicular traffic entering and leaving

the central business district. The traffic pattern is ascertained by stationing men on the periphery of the Loop.

As a result of an extensive survey by the Staff, the Committee recommended and the City Council passed a new taxicab ordinance amending general taxicab regulations and revising the fare structure.

The Committee Staff still conducts surveys to ascertain if trucks carrying flammable materials continue to operate on streets under which subways are located. It is significant that each succeeding year the number of violations of section 129-55.3 of the Code is decreasing and the hazard present in the operation has diminished substantially.

The cooperation of other city departments and civic organizations in connection with the activities of this Committee is acknowledged and sincerely appreciated. Also I wish to express my thanks to the members of the Staff for their efforts during the past year.

Respectfully submitted,
(Signed) PAUL M. SHERIDAN,
Chairman.

REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

TEXT OF THE BUDGET STATEMENT BY
MAYOR RICHARD J. DALEY
Monday, November 16, 1964.

Honorable Richard J. Daley, Mayor, thereupon read to the City Council the following communication, which was, on motion of Alderman Keane, ordered published:

To the Honorable, The City Council of the City of Chicago:

GENTLEMEN—On November 16, 1964, the Executive Budget of the City of Chicago for the Year of 1965 was filed with the City Clerk.

The 1965 Budget for the City of Chicago Government is submitted herewith for consideration and approval by the City Council.

The Executive Budget for 1965 calls for a total Appropriation for Corporate and Noncorporate Expenditures of $510,542,732.

This is a decrease of $21,573,737 compared to 1964. The Corporate, or Operating Budget totals $231,996,171 as compared to $231,998,170 in 1964—a reduction of $1,999.

The 1965 Budget provides for a $7,000,000 reduction in Real Estate Taxes. Property Taxes will decrease $7,101,030 for all property tax-supported funds including the Corporate—from $211,325,728 in 1964 to $204,224,698 in 1965.

The decrease of $7,000,000 in the Tax Levy is due primarily to reduction of the debt service—Bonds and Interest—from $38,569,222 in 1964 to $31,060,081 in 1965. The Tax Levy of $109,034,000 in the 1965 Corporate Fund is the same as 1964.

The 1965 Real Estate Tax Reduction will be reflected in the 1966 tax bill. This will amount to five or six cents per $100 of assessed valuation, because of a two cent increase in the Tax Levy paid by the City for the civic center. The exact amount however, will not be known until the 1965 assessed valuation is reported.

Allocation of Appropriations.

On the recommendation of the Civil Service Commission, doctors, nurses, medical technologists and technologists and technical engineers have been upgraded one grade—the Commission recommended the increase to attract and retain qualified personnel for which there is a great demand and to reduce the necessity of hiring professional personnel above the entrance rate.

The increase will go into effect in accordance with the anniversary date provided in the Compensation Plan.

An additional longevity step has been provided in the compensation plan for employees with twenty or more years of continuous service. Previously it had been at sixteen years. This will cost an estimated $165,000 and will help retain experienced personnel.

Other than these provisions, there are no salary increases except for automatic increases provided in the Compensation Plan and Union Wage Adjustments. The increases for union workers in both the Corporate and Noncorporate Budget are $500,000. This follows the City of Chicago's policy of paying union wages.

The increase for all departments in the Corporate Budget is $1,478,892. This was offset by a decrease in the Corporate Budget of $1,480,891—which includes a reduction of $1,325,492 in the appropriation for the Board of Election Commissioners—resulting in a net reduction of $1,999 compared to the 1964 Corporate Budget.

Allocation of Increases for Departments.

The departmental increases in the Corporate Budget are primarily: —$165,254 for the Civil Service Commission; $261,448 for the Courts; $192,565 for the Department of Health; $194,077 for the Commission on Youth Welfare; $100,000 as a revolving fund for the future programs of the Committee on Urban Opportunity; and $75,000 for anticipation of advances for federal aid grants and projects.

These allocations total $986,344. All other increases for departments are under $28,000.

To hold the line on the 1965 Budget and to avoid an increase in real estate taxes, expenditures were reduced in nearly every department. These reductions were made possible by stringent economies in all operations involving contracts, personnel, commodities, equipment and by improved supervision. Approximately 200 positions were eliminated from this Budget.

Nearly every department in the city has had the benefit of surveys by expert consultants providing for the consolidation of functions, the use of electronic office machinery and the elimination of paper work. Better supervision and reorganization of departments resulted in a substantial reduction in overtime amounting to $744,000 in 1964.

There can never be a complete elimination of overtime because of the emergency and seasonal nature of such governmental activities as snow removal, street and bridge repair, water and sewer maintenance, and similar services. In the proposed Budget it is expected that $480,000 will be reduced as compared to 1964.

In no instance, however, has city services been curtailed and the quality of city services has never been higher in the history of our city and comparisons with other cities and municipalities would show that the citizens of Chicago receive more and better services for their tax dollar.

The Chicago Police Department is reducing crime in Chicago while at the same time crime is increasing throughout the nation.

At the end of the first six months of 1964 the FBI reported that major—index—crimes were up nationally 15 percent, while the cumulative total for major crimes in Chicago thus far this year are three percent less than the cumulative total for the same period in 1963.

Among many improvements, which are cited in the Corporate appropriations and activities section of the Budget message, was increased emphasis on Patrol and Crime Prevention activities with additional patrolmen assigned in areas of high crime incidence.

In August of 1964, the field service division of the International Association of Chiefs of Police conducted an evaluation survey of the Police Department. The reports state: "In conclusion, participants in this study were very favorably impressed with the Chicago Police Department of 1964. Law enforcement in Chicago is on sound footing. That more has not been done is solely due to time limitations. The progress of the last four years has been nothing short of phenominal."

The report also commented: "There is no question that the City Administration has made notable contributions to the cause of good law enforcement, not only in Chicago but elsewhere as well because of its staunch effort to give the citizens of the City of Chicago the very best Police Department in the world. This moral support has been backed by adequate financing, staff assistance and by otherwise facilitating and expediting improvements."

I might add that the progress of the Police Department could not have been achieved without the fullest cooperation of this City Council and, of course, the key to this progress is the support of the people of Chicago.

In November of 1964 the City of Chicago Public Fire Protection Classification was raised from class 3 to class 2 by the national board of underwriters because of improvement in the Chicago Fire Department and its operations.

As a result of this new classification, business and commercial enterprises benefited by an average reduction of $1,250,000 annually in their fire insurance rates. But of greater importance is the added protection to life and property of all our citizens.

The new classification was achieved by providing increased manpower at fires in high value districts, an expanded program of salvage operations, new equipment and increased fire-fighting training.

Only eight cities in the nation have been awarded a class 2 grading and Chicago becomes the largest city in the United States to obtain this rating. No city has ever obtained class 1.

The proposed 1965 Budget Appropriation for the Police Department is $91,379,739 an increase of only $17,376 and the Appropriation for the Fire Department is $36,817,528 an increase of only $22,813.

Both departments however, in the coming year will continue to improve and expand their services.

The allocation for the Board of Health is increased by $192,565. This is to be used as a revolving fund for federally reimbursed projects.

In an effort to further reduce maternal and infant mortality and in recognition of Chicago's reputation in the field of infant and maternal health, the Children's Bureau of the Department of Health, Education and Welfare has awarded to the Health Department a grant of $1,500,000 a year for a period of five years.

This maternal and child health program will serve as a model for other cities in the nation and will attack the leading causes of infant and maternal deaths.

In 1964, a modern health facility providing fully intergrated health services to the 250,000 residents of the Garfield Park-Lawndale Community Area was installed in Garfield Park. This installation—named the Herman N. Bundesen District Health Center—was a significant step towards the decentralization of services, bringing the resources of the Board of Health directly to the community.

The primary philosophy covering the establishment of the facility was to make it a family center and in this way make is possible for families to come and benefit from the programs.

Since the opening, over 11,000 children have been examined in the Infant Welfare Clinics and more than 4,000 pregnant women have been given prenatal examinations and health care. Inoculations of all types have been administered to both children and adults and a Dental Health Clinic treated more than 4000 young people.

For the most part, these patients who have benefited by the care and health services provided by the center would not ordinarily have been reached if a district Health Center had not been in operation.

In September of this year, the Woodlawn Mental Health Center was established and is a primary community mental health resource. With the assistance of community agencies an initial program has been developed to identify and provide treatment for those first grade children who appear to be having trouble in reaching their full potential.

This program will be concerned with approximately 2000 first grade children in Woodlawn, including children in parochial as well as public schools.

In addition, a program for Family Group Therapy for children in elementary schools is now being planned. Also psychiatric consultation for the civic agencies in Woodlawn is being instituted. This program—being directed by three psychiatrists who are assistant professors at the University of Illinois College of Medicine—is attracting nationwide comment and is serving as a model for similar programs in other cities.

There are four other mental health centers in Chicago, and by the end of this year nearly 8000 interviews will have been given by psychiatrists, psychiatric social workers and psychologists.

The Division of Adult Health and Aging of the Health Department is making a concerted attack on cancer—Heart diseases—and diabetes.

These programs are in addition to the regular inspections—dental health—communicable disease control—and school health programs carried on by the board.

During 1964, the operation of the Chicago Board of Health cost the citizens of Chicago $7,642,000. This means that the health protection control of disease and the regulatory inspections cost each resident of our City approximately $2.10. This is far less than any other major metropolitan community.

The 1965 Budget allocates to the courts an increase of $261,448 to be used primarily for psychiatric and social case work services. This division of the Court is making a direct contribution to the

rehabilitation of persons, the prevention of crime, and restoring basic family relationships.

The 1965 Budget Appropriation for the Department of Streets and Sanitation represents a decrease of more than $100,000 from the 1964 Appropriation.

This decrease has been brought about by an improvement in supervisory procedures and by a more efficient utilization of manpower within the various bureaus of the department. This has and will result in the reduction in overtime payments.

The Department continued its outstanding records of refuse collection, keeping our City clean, and snow removal. A new data-processing program has been installed which will bring improved efficiency of operation and savings.

Cooperating with the Mayor's Committee on Economic and Cultural Development, the Bureau of Street Traffic has acted as a traffic consultant to several Chicago businessses and industries and by improving traffic conditions has helped these companies to up-grade themselves and their neighborhoods and continue their growth within the City of Chicago.

The Budget Appropriation for the Building Department is $5,322,429 an increase of $21,887. During 1964, the department set a new record in its program to rid the City neighborhoods of dangerous, abandoned buildings. By the end of the year, more than 520 such eyesore buildings will have been taken down compared to 490 during 1963.

The consolidation of inspection services and procedures with the Fire Prevention Bureau were completed during 1964. This consolidation has resulted in one checklist being used by both departments, one compliance board instead of two, one pre-suit inspection, a sharp reduction in duplicate inspections and consolidation of court cases.

As of October, 1964, from court orders and voluntarily, total expenditures for repairs, renovation, alterations and additions were more than 73 million dollars or 36 percent more than the 53 million spent for the same period in 1963.

In 1965, the department will install a modern data-processing center which will identify and separate duplicate complaints against the same structure, screen out the worst cases for court action, control re-inspections, and greatly facilitate the gathering of data reflecting the conditions of properties in any block.

The total appropriations for these five vital housekeeping departments—Police, Fire, Health, Sanitation, and Building—represents approximately 76 percent of the Operating Budget. The total increase in the Budget for 1965 for all their operations, and for expanded and improved service is $154,000.

An example of the continuous program to achieve efficiency and economy is the important innovation and new concept in governmental buying developed by the purchasing department. In affecting a purchase-maintenance contract covering the purchase of refuse trucks. The contract stipulates that the supplier of the trucks must maintain the trucks in good condition for a period of six years at fixed monthly rates. The low bid therefore reflects the end cost of the equipment for the life of such trucks. The City expects to save approximately $250,000 from this purchase maintenance contract. This new type of contract which eliminates the cost of maintenance by the City will be utilized in other contract bids for capital equipment and will result in substantial savings. This is the first application of this kind of buying in the country by a government purchasing office.

The 1965 Budget allocates $965,054 for the Civil Service Commission—an increase of $163,254 to be used for increasing the personnel.

The Commission will conduct approximately 150 examinations this year involving 35,000 candidates —the largest number ever examined by the Commission in this period of time. In 1965, it is anticipated that the Commission will conduct 200 examinations.

Also in 1965, the Civil Service Commission will expand several important activities begun during 1964. Among these are the expansion of the Commission's recruitment program to attract professionally trained employees to city government—the development of new programs for time-keeping and record-keeping—organizational and classification studies—and reviews in over ten city departments will be undertaken by the Commission during the coming year.

The Department of Air Pollution Control was one of the first in the nation to apply for and receive $393,000 a year for three years in federal aid funds under the provisions of the Clean Air Act.

This money will be used to carry out a long-range program to keep our air clean and to check the threat to health and property.

The department has initiated a program whereby 7,300 industrial and commercial establishments within the City are being studied to determine the effect of their operations on air pollution and to provide technical advice to insure proper use and maintenance of equipment.

The City of Chicago's Air-Monitoring Program is being used as a model for the nation, and the department is now installing a laboratory to determine what emissions are harmful to life and property.

The department has been cited by both the United States Department of Public Health and the Senate Committee for the pioneering work it is doing in this essential field.

I have given a brief summary of some of the highlights of the 1965 Budget in providing the fundamental services that are essential to the well-being and welfare of our citizens. There are summaries of greater detail concerning every department in the section of this message citing comparative appropriations and activities by major departments—and, of course, the Budget Document itself provides the fullest information.

But Budgets are more than a maze of figures . . . tables . . . accounting terms . . . and the technical language of government administration.

Budgets must account for performance. Have the programs which the Budget supports maintained property values? Are the taxpayers getting full value for their dollars?

The true measure of a Budget is what it will do for people. Have the activities supported by the Budget made their lives better?

A good Budget must do more than account for the past and provide for the present. The programs financed must give direction . . . promise . . . and substance for the future.

Last August, the Department of City Planning and the Chicago Plan Commission published the basic policies for the Comprehensive Plan of Chicago. The fundamental overriding goal of the Comprehensive Plan is simply "to improve the quality of living for every resident."

The objectives of the basic policies for the comprehensive plan are:

"To improve the residential environment by eliminating substandard housing, increasing the variety of housing choice, expanding recreation space, improving schools and other community facilities, relocating industrial plants scattered in residential areas, and reducing traffic volumes on residential streets—

"To strengthen and diversify the economy by renewing and expanding industrial areas, improving transportation facilities, strengthening the central business district, renewing outlying business areas, supporting the expansion needs of institutions for research, higher education, and medical care, and improving facilities for education—

"To enlarge human opportunities by improving public education facilities, supporting educational and medical institutions, increasing employment opportunities, improving public services, supporting freedom of housing choice throughout the city, and increasing the variety of housing choice within communities."

All the City Services I have discussed are fundamental and directly related to Departments and activities which are concerned with the challenge of physical, economic and social renewal.

The publication of the basic policies was a major accomplishment of the Department of City Planning in 1964. The distribution of the basic policies for review by citizen organizations before the actual development of a comprehensive plan represents a pioneering approach in city planning. The policies are now being discussed with community groups throughout the City and will be revised in accordance with public consensus. This will enable the people of Chicago to participate directly in the preparation of the plan that will guide the future development of their City.

In 1965, the translation of these policies into detailed plans for specific neighborhoods will be developed.

At the end of 1964, the Department of Urban Renewal had a total of 35 projects, consisting of eight redevelopment projects which have been completed . . . 19 redevelopment projects . . . and four conservation projects in execution . . . two redevelopment projects and two conservation projects in planning.

Since its inception in 1962, a major goal of the Department has been that of accelerating the sale of land. As of October 1st, 70 acres of land have been conveyed to redevelopers and 80 more acres have been approved by the City Council, and the department is now on a current basis in its land disposition program.

The diversity of the redevelopment and conservation projects in this vast Community Renewal Program is indicative of the range of the renewal needs of a dynamic City.

Thousands of residential units—ranging from multi-story apartments to single family homes—are involved. They include land for schools, including the University of Illinois . . . for hospitals . . . industrial districts . . . and shopping centers.

The future of our City demands that we eliminate slum areas that are beyond repair, but the emphasis of our program is on conservation and rehabilitation not demolition.

The results of conservation programs in Hyde Park-Kenwood—where more than 50 per cent of the properties have complied with the highest standards, is evidence of what can be accomplished. As a result, property values have increased an average of 20 per cent in the last three years—and in an integrated community.

During the first ten months of this year in Hyde Park-Kenwood, total rehabilitation expenditures were more than $3,335,000 compared to $2-million dollars for the same period in 1963.

In Lincoln Park—influenced directly by the Carl Sandburg Project and by the urban renewal conservation plan—residential rehabilitation expenditures for the first ten months stood at more than $1,400,000 compared to $1-million dollars last year.

And the entire community renewal program has a direct bearing on reducing real estate taxes—for the increase in property tax revenue is more than double after redevelopment than before.

The department is developing a pattern of improving a block which, because of its deteriorating condition, is depressing other properties in the neighborhood. It seeks to improve a block or two containing deteriorated or uneconomical shopping areas by new traffic arrangements . . . construction of modern buildings . . . and installation of attractive facilities.

Examples of the smaller opportunity projects are Garfield and Wentworth and at 79th Street and Normal.

All of our experience shows that these small programs will by themselves stimulate great interest on the part of the property owners in the community. It can be anticipated that they will launch rehabilitation programs that will increase not only the value of their own property but neighborhood property values.

In 1965, the projects Pershing-Cottage Grove . . . Central-Englewood . . . Lincoln Park . . . and 60th-Cottage Grove will be brought to the execution stage.

Projects to be closed out include Roosevelt-Clinton . . . Harrison-Halsted . . . Roosevelt-Blue Island . . . West Central Industrial Projects . . . 69th-Stewart . . . and the Illinois Institute of Technology.

Redevelopment of cleared land will begin in the near West Side . . . Southeast Englewood . . . Michigan and 29th . . . and 37th and Cottage Grove.

Making a genuine contribution to the City's economic and social development is the Committee for Economic and Cultural Development.

As a result of the success in keeping a major company in Nortown and the continued employment of its 2000 employees, the Committee organized an industrial planning unit. This unit—working closely with City Departments and with the Nortown Industrial Management Club—has proposed an industrial development program for the district. For this area of 3000 acres, twelve individual industrial development proposals will be prepared and co-ordinated into an overall comprehensive proposal.

Since beginning its active program of work with Chicago's industrial community to help with some of the problems it faces, the Committee's staff has been called upon for assistance by more than 100 different companies.

Because the specific employment and industrial expansion needs vary within the City, a special industrial development program is being prepared for a west-near-south portion of Chicago.

With the technical assistance of $125,000 from the area redevelopment administration, the Committee will develop an action proposal which will bring together the available labor force . . . the needed training programs . . . and the advantages of the area to industry.

In 1964, the first study of the impact of Automation and Modern Technology on Industry in the City was completed under the sponsorship of the Committee. This study has received recognition throughout the country. A special implementation group has been formed by the Committee to take appropriate action based on the findings of the study. This Committee intends to see that Chicago takes advantage of this great first step forward in anticipating the effect of automation by creating a climate for positive change.

A special task force to develop a major Professional Theater Company in Chicago has been created and special consultants are discussing the establishment of such a company. Exploration in detail of the many artistic . . . financial . . . physical and community special problems has been undertaken. The first full scale investigation of the needs and opportunities for cultural programs in a large, urban community has been launched . . . and a $60,000 foundation grant has been received for this work.

One of the Committee's major accomplishments in 1964 was the publication of "Chicago" magazine produced in close cooperation with business. Its purpose is to realistically portray the true story and image of our City.

The magazine will be published quarterly in 1965.

Chicago's Commission on Human Relations has made an outstanding record in seeking to maintain and develop harmonious relations among all our people . . . to assure equal opportunity for all persons . . . and for policing the fair employment clause in City contracts . . . and implementing the fair housing ordinance and civil rights laws.

The 1965 appropriation for the Commission on Youth Welfare is $1,027,903—an increase of $194,000 to be used to staff additional neighborhood centers and for additional in-training programs.

For the third consecutive year, there have been no major youth gang conflicts.

The Commission has served as a partner in programs of existing organizations . . . agencies . . . and institutions. It has not undertaken new programs on its own but, instead, it uses resources that exist or might be built by local organizations. In 1964 the Commission shared in developing nearly 1800 programs for Chicago's youth. At the present time the Commission has units working in 15 neighborhoods, and in 1965 two more will be added.

Chicago is now demonstrating that its program for youth has laid a solid foundation for using future resources for growth and improvement. The Chicago Joint Youth Development Committee has received a $1 million two-year grant from the Federal government to put its juvenile delinquency prevention project into motion. That program is under way and there will be additional grants for this and other parts of the City.

This week, the Commission on Senior Citizens will receive a special citation for community service from the United States Department of Health, Education and Welfare.

The citation is: "In recognition of outstanding community service in developing greater public awareness of the needs of older people and of the opportunities available for meaningful use of retirement years."

The 1965 Budget appropriates a revolving fund of $100,000 dollars for the Committee on Urban Opportunity, to advance Chicago's attack on poverty.

All of us are familiar with President Johnson's proposal which is: "To eliminate the paradox of poverty in the midst of plenty in this nation by opening for everyone opportunities for education . . . training . . . work . . . and a life of decency and dignity."

The Committee on Urban Opportunity was created last April. Its goal is the elimination of unemployment . . . slums . . . and family dislocation—not merely as part of the national war on poverty, but as part of Chicago's ever-widening commitment to its people.

Since then, the Committee has organized with a competent, professional staff. The proposed activities are many and varied. There are job-finding programs . . . public and private; re-training and educational programs for youths and adults; programs to eliminate drop-outs; tutoring programs to help reduce illiteracy; and community improvement programs directly related to providing economic opportunity for all.

The Committee now has under consideration more than 80 proposals from civic . . . religious . . . community . . . and educational organizations to fight poverty in our City. They are being studied and a realistic program will soon be presented to the Federal authorities.

Our Capital Improvements Program has continued to move steadily forward. During 1964, the Department of Public Works opened three new major facilities for public use.

The Southwest Expressway completes the major expressway construction now planned by the City and provides links to all traffic movements in the area.

The Central District Filtration Plant—the largest in the world—began supplying pure, filtered water to Chicagoans and residents of 33 suburbs living north of 39th Street. This $105-million dollar plant serves some three million persons living in that area.

A major traffic bottleneck was eliminated with the opening of the Oak Street-Lake Shore Drive Tunnel.

Bridges were built . . . maintained . . . and repaired; more than one mile of additional sewers, benefitting approximately 52,000 persons, was constructed.

In 1965, new fire stations . . . new libraries . . . new bridges will be constructed.

The Department of Aviation began resumption of scheduled passenger flights after almost two years absence at Chicago's Midway Airport. This year there will be 220,000 aircraft operations and 800,000 passengers using Midway, as compared with approximately 126,000 aircraft and 418,000 passengers in 1963.

Chicago-O'Hare International Airport remained the busiest airport in the world, with approximately 450,000 aircraft operations and 18½-million passengers. In 1965, there will probably be 470,000 aircraft operations and 20-million passengers.

There can be no question that Midway Airport can be Chicago's second airport to take care of the future of our aviation needs.

For the sixth consecutive year, since the opening of the St. Lawrence Seaway, the Port of Chicago at Navy Pier has shown a substantial increase in every aspect of its operation. Tonnage increased during 1964 approximately 30 per cent over last year to about 420,000 tons.

During the year a total of 280 overseas vessels docked at Navy Pier and over 560 docked in the Chicago Seaport as a whole.

The Port of Chicago now handles more foreign trade than all of the nine other Great Lakes ports combined.

Chicago can be proud of its financial standing. According to the latest available credit reports published by Dun and Bradstreet, a national credit rating service, the City of Chicago had the fourth lowest direct per capita debt of all cities having a population of 500,000 and over. Chicago is second lowest among the five cities with population in excess of 1,000,000.

If we include the direct debt of the City, plus a proportionate share of the other Local Governmental bodies which levy taxes in the same area, namely: Cook County . . . Board of Education . . . Chicago Park District . . . Metropolitan Sanitary District of Greater Chicago . . . and the Forest Preserve District—the overall per capita debt of Chicago is $170.75—2.3 percent of the estimated full property valuation. This is the lowest among the twenty cities in the United States with a population of 500,000 and over. The average per capita debt of these cities is $287—or 5.7 percent of estimated full property valuation.

Chicago is the only city with a population of over 1.000,000 and one of the four cities of over 500.000 population whose securities are given "prime" rating by Dun and Bradstreet.

Chicago's scheduled debt retirements provide for the payment of 44 percent of the current bonded debt within the next five years and 80 percent within the next ten years.

This is a budget which has given prime consideration to the plight of the small home owner. The City's Property Tax Levy has been reduced, but at the same time no service has been curtailed and the quality of government service has improved. This hold-the-line budget has been achieved because of improved efficiency . . . mechanization and electronic equipment . . . better supervision and administration.

In the past two years there has been a reduction of 700 jobs. The City's Real Estate Tax Levy was substantially reduced in 1963; in 1964 it went up because of an increase in the salaries of Policemen and Firemen; and in 1965 the City's share of the Real Estate Tax Bill will again be reduced.

But our citizens cannot be satisfied with government unless it faces the challenges of our time—physical, economic, and social renewal. The City must find additional sources of revenue other than real estate taxes—although in Chicago real estate taxes are lower—and in many instances substantially lower—than in most of our suburbs.

There is an urgent need for a non-property tax source of revenue by nearly all of our Municipalities throughout the State.

In Chicago all of us realize that salaries of Policemen and Firemen should be increased. We should have more district health centers such as we have in Garfield Park. The City needs more funds so it can increase the demolition of hazardous and dangerous buildings which are a blight in our neighborhoods. We should provide for neighborhood service centers which bring together the services of the building . . . planning . . . urban renewal . . . corporation counsel . . . and youth welfare . . . into one central location.

The Bureau of Sanitation is now collecting refuse twice a week in some neighborhoods. This service should be expanded to many more neighborhoods. More modern equipment should be purchased for refuse collection, snow removal, and the collection of leaves to eliminate open burning.

We need additional matching funds so that we can go ahead with further phases of the long-range Lincoln Park Conservation Program which covers 1088 acres . . . and the 3060-acre Englewood Conservation Area.

There are other designated conservation areas which include: the East Humboldt Park—Near North West Area of 2,454 acres . . . The Lawndale Area of 2,533 acres . . . the West Woodlawn Area of 240 acres; East Ravenswood of 255 acres . . . and West Garfield-Tilton 255 acres.

However, there are no funds for these large scale commitments. Other communities such as Uptown . . . North Oakland . . . Madison-Ashland . . . Pilsen . . . Lakeview . . . South Shore . . . Lake Calumet . . . want to participate in programs that will rebuild and conserve their neighborhoods.

We have provided $75,000 for anticipated federal matching funds but this will fall far short of meeting the requirements of future Federal programs.

We must continue our capital works program and we need funds for Sewers . . . Incinerators . . . Police and Fire stations . . . Street Repair . . . Street Lighting . . . Bridges . . . and other Public Works. We have been discussing with railroad officials the consolidation of the railroad terminal on the near south side. This consodilation is essential if we are to free the south side from the network of rails and make available high value land for commercial and residential use.

A committee has been studying the feasibility of a new sports stadium and their report will soon be published.

In the last eleven years, three reports have been made on Chicago's taxes and revenue. All of them agreed with the recommendations made by James Cunningham, former President of the Civic Federation who was chairman of the Mayor's Commission on Revenues in 1952. That committee recommended that "the City of Chicago be given reasonable though limited discretion in raising revenues from time to time from any appropriate sources, without the necessity of recurrent pleas to the Illinois General Assembly for legislative aid."

But, failing this grant of home rule powers, the City has no choice but to turn to the General Assembly in a plea to grant sources of revenue that will not continually penalize the small home owner.

The most important task facing the General Assembly is the amendment of the archaic Revenue Article. This would permit classification of property, make for a more equitable tax system, and eliminate the unfair burden on the small home owner.

There can be no question—no doubt—no lack of confidence—in the future of our City. We will continue to move forward to make this City not only a better place to live and work but the best place to live and work.

The progress that has been made in the past year has been the result of teamwork and effort on the part of department heads and city employees working together to improve service to the people.

Each year the performance of City employees has risen and they are living up to principle of giving a day's work for a day's pay.

The dedication . . . the vision . . . and the hard work of the members of the City Council must be credited for a great share of the gains made in the improvement of City Government.

To all, I wish to express my heartfelt thanks and appreciation.

Today's message is a summary of the highlights of the 1965 Budget. I look forward to your recommendations . . . your suggestions and criticisms to the end that when the Budget is adopted it will truly serve the citizens of Chicago.

Sunday, November 22, 1964 Designated as Day of Mourning in Memory of First Anniversary of Assassination of Late President John F. Kennedy.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, presented the following proposed resolution:

WHEREAS, The first anniversary of the assassination of President John Fitzgerald Kennedy will be observed on Sunday, November 22; and

WHEREAS, The great sense of loss of the American people, and of the freedom-loving people of all the world, is undiminished since the unconscionable occurrence at Dallas, Texas, when the gallant young President's life was taken; and

WHEREAS, It will be recalled at this time that memorial services for the fallen leader were held in this chamber shortly after the President's death, and the grief of the people of Chicago was given expression in this way; and

WHEREAS, The great and abiding love of the people of all walks of life for President Kennedy is demonstrated daily at his graveside in Arlington Cemetery, and is made evident in many other ways, as it certainly will be for all time to come; now, therefore,

Be It Resolved, That the members of the City Council of Chicago, in meeting assembled this sixteenth day of November, A.D. 1964, express anew our sorrow at the untimely passing of President Kennedy and designate Sunday, November 22, as a day of mourning throughout the city in tribute to the martyrdom of the youngest Chief Executive ever to hold that high office.

On motion of Alderman Keane (seconded by Aldermen Bohling, Murray, Danaher and Campbell), said proposed resolution was *Adopted,* unanimously, by a rising vote.

In their seconding speeches the Aldermen remembered the horror of the people of Chicago upon learning of the assassination of the late President, their devotion to his memory which they had expressed by designating the Northwest Route of the Comprehensive Superhighway system as the "John F. Kennedy Expressway", the action of the Board of Education in naming a new school in his honor and directing revision of all history textbooks so as to educate the young folks of this area to understand and appreciate the outstanding contribution John F. Kennedy had made to the welfare of our country when he served with valor in the Navy and as President when his administration was motivated by his high ideals and patriotism. They remembered with pleasure the two visits to the Mayor of our City, seeking his assistance in his campaign for the Presidency, and they warmly endorsed the Mayor's action in designating Sunday, November 22, 1964, as a day of mourning for his loss.

Tribute Paid to Late Stanley Field.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, presented the following proposed resolution:

WHEREAS, The death of Stanley Field, on October 28 at the age of eighty-nine, removed from our midst a greatly distinguished Chicagoan whose lifetime linked much of the past and present of our great city; and

WHEREAS, Stanley Field, as merchant, civic leader, humanitarian and philanthropist made contributions to our community progress which will endure always as a monument to his memory; and

WHEREAS, He was a former executive of Marshall Field and Company, whose founder was his uncle and first employer; and

WHEREAS, At the time of his death he was chairman of the board of the Chicago Natural History Museum, the great lake front cultural institution which was of all his many public interests closest to his heart; and

WHEREAS, The Natural History Museum, the Shedd Aquarium, the Brookfield Zoo, and Grant Park reflect his planning, administrative genius and monetary gifts which he and other members of his family made to these world famous centers of learning and recreation; now, therefore,

Be It Resolved, That the members of the City Council of Chicago, in meeting assembled this sixteenth day of November, A.D. 1964, do hereby make public acknowledgment of our sense of loss

at the passing of a justly revered Chicago citizen-leader and express to his son, Joseph N. Field, his daughters, Mrs. Clifford Rodman and Mrs. Daphne Cook, and the other members of the family, our most sincere condolences.

On motion of Alderman Keane said proposed resolution was *Adopted,* unanimously, by a rising vote.

In making his motion Alderman Keane paid warm tribute to the memory of the late Mr. Field, recalling that his name had become a byword for all that was generous, cultural, and patriotic in the history of the City throughout the many years he had graced the Chicago scene.

WHEREAS, Honorable John C. Melaniphy has faithfully served the citizens of Chicago and the members of the City Council of the City of Chicago as Corporation Counsel for many years past, com-

mencing with his appointment to that position on April 20, 1955; and

WHEREAS, Said John C. Melaniphy has distinguished himself by the most able, commendable and outstanding manner in which he has discharged all of the duties of his office; and

WHEREAS, The City Council of the City of Chicago has many time in the past had occasion to receive so many scholarly legal opinions from the said Honorable John C. Melaniphy as to make him a worthy recipient of the deep and abiding gratitude of all members of said Council; and

WHEREAS, The said Honorable John C. Melaniphy has been elected to the office of Judge of the Circuit Court of Cook County so that he must necessarily resign his position as Corporation Counsel of the City of Chicago; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of Chicago in meeting assembled, hereby congratulates Honorable John C. Melaniphy upon his election to the office of Judge of the Circuit Court of Cook County, and hereby extends to him the best of good wishes for a long and distinguished judicial career.

On motion of Alderman Goldberg said proposed resolution was *Adopted.*

In seconding the foregoing resolution Aldermen Sperling, Condon, Murray, Marzullo, Chew, Rosenberg, Keane, Bohling and Holman expressed their deep respect for Mr. Melaniphy as an outstanding member of the legal profession, whose abilities were especially brilliant in the field of municipal law. They stated that his legal briefs were concise and to the point; that his opinions reflected thoroughness in thinking and fairness in the interpretation of the law. The Aldermen's remarks emphasized that while the City was losing an outstanding legal adviser, the Circuit Court would gain by the abilities and sincerity Mr. Melaniphy would bring to the bench. They congratulated him and wished him and his family health and happiness.

Honorable Richard J. Daley in his address of commendation stated that during the ten years he had served the City as its chief executive, Mr. Melaniphy had been his "right arm", and that the people of the city will always remember and be grateful for the legal knowledge, experience and dedication with which he had served their best interests as head of the legal department.

The privilege of the floor having been extended to Mr. Melaniphy, he stated that early in life he had adopted a philosophy not only to devote his abilities to the practice of law, but to train young lawyers under his jurisdiction in the intricacies of the special field of municipal law. He asserted that his greatest honor came when Mayor Richard J. Daley appointed him as Corporation Counsel of the City and that he feels that the years he has spent in the Law Department of the City from the time of the late Mayor Kelly to the present were his most enjoyable and effective years. He expressed his appreciation not only for the Aldermen's concurrence in the commendation and felicitations of the foregoing resolution but for the cooperation they had extended to him through the years.

Upon conclusion of Mr. Melaniphy's address, the members of the City Council gave him a standing ovation.

In connection therewith Tenant is granted the exclusive use of the Demised Premises, subject to the terms and provisions hereof and to rules and regulations promulgated by Landlord, for the foregoing privileges and for the operation of related administrative offices, parking, loading, unloading of aircraft trucks, delivery trucks or automobiles of employees and others having business with Tenant, and for no other purpose whatsoever. It is understood that parking on the Demised Premises will be at all times without charge and will only be permitted for and in connection with Tenant business.

Landlord covenants that it shall not during the term hereof grant to any other individual, firm, or corporation, occupying space on the Airport, a similar privilege on terms or conditions more favorable than those granted to Tenant by the provisions of this Agreement.

Tenant shall cause all construction work, workmanship, materials, and installations to be in full compliance with plans and specifications.

Landlord has constructed roadways and lines for water, sewage, electricity, gas and storm drainage in the vicinity of the Demised Premises as indicated on Exhibit "B" attached hereto and made a part hereof. Tenant is granted the right and privilege, at its own expense, to continue the construction of such roadways, lines, and drainage ditches to serve the facility to be constructed on the De-

Landlord agrees that all such items of leased equipment shall be and remain personal property notwithstanding the fact the same may be attached or affixed to real property. Tenant, and the lessor, sublessor, or assignee to the extent of their respective interests in such equipment, shall have the right at any time to remove or replace any and all such equipment, regardless of whether attached or affixed to real property; provided, that any damage caused to real property by such removal or replacement, shall be repaired to the satisfaction of Landlord by and at the expense of Tenant.

Tenant shall not install, erect or place, or permit others to so do, any illuminated signs, placards, displays or other advertising media on Flight Kitchen or elsewhere on Airport, without the prior written consent of the Commissioner of Aviation.

Landlord, by its representatives, shall have the right at any reasonable time, and as often as it considers necessary, to inspect the Demised Premises and (without any obligation so to do) to enter thereon to direct Tenant to make ordinary repairs to insure a continuing quality.

Article VII.

Title to the said Flight Kitchen and related improvements to the Demised Premises and to any and all subsequent alterations, modifications, and enlargements thereof, shall upon completion vest in Landlord.

In the event that the Demised Premises are required for Airport purposes prior to the expiration of this Agreement, the Commissioner of Aviation may, upon sixty (60) days advance written notice to the Tenant, direct Tenant to vacate the same provided that Landlord, within sixty (60) days after Tenant's removal therefrom, will pay to Tenant the unamortized portion of the cost of the permanent structures and improvements constructed and installed thereon; such amortization to be computed on a straight-line basis over the period from the completion of said improvements to the expiration date of the initial term hereof.

Article VIII.

Landlord hereby grants to Tenant the right of access and ingress to and egress from the Demised Premises by Tenant and its employees, contractors, suppliers, servicemen, sublessees, guests, patrons and invitees; provided, that such rights of access, ingress and egress, are at all times exercised in conformance with any and all regulations promulgated by Landlord or the Commissioner of Aviation or other lawful authority, for the care, operation, maintenance and protection of the Airport and the public.

The operations of Tenant and its employees shall be conducted in an orderly and proper manner so as not to annoy, disturb or be offensive to others at the Airport. Landlord shall have the right to complain to Tenant as to the demeanor, conduct, or appearance of Tenant employees, whereupon

Tenant will take all steps necessary to remove the cause of the complaint.

Tenant and its employees, invitees, and those doing business with it shall have no right hereunder to park vehicles upon the Airport premises, other than in places demised to Tenant pursuant to this Agreement, or except in regular parking areas upon payment of regular charges therefor.

Article IX.

Tenant shall provide a complete and proper arrangement for the adequate sanitary handling and disposal off the Airport of all trash, garbage and other refuse caused as a result of the operation of its business. Tenant shall provide and use suitable covered metal receptacles for all garbage, trash and other refuse on or in connection with the Demised Premises. Piling of boxes, cartons, barrels, or other similar items, in an unsightly or unsafe manner, on or about the Demised Premises, is forbidden. The method of handling and disposing of trash, garbage and other refuse shall at all times be subject to approval of the Commissioner of Aviation.

Article X.

Tenant shall not be obligated to operate the Demised Premises or to pay ground rent therefor during any time when all of the Demised Premises shall be untenantable, as determined solely by the Commissioner of Aviation, through no fault or negligence of Tenant, its employees and agents. In the event the Demised Premises are partially untenantable, as determined solely by the Commissioner of Aviation, through no fault or negligence of Tenant, its employees and agents, Tenant shall not be obligated to operate such part of the Demised Premises and the rent shall be proportionately and equitably abated. In the event that the Airport shall be closed for any period of time by any order or direction of Landlord or any other governmental authority or agency, or by any order or direction of any court of competent jurisdiction, the rental shall abate for the period of such closing.

Article XI.

Tenant, at the expense of Tenant, shall keep in force, during the term of this Agreement, insurance issued by responsible insurance companies, in forms, kinds and amounts as determined and directed by Comptroller for the protection of Landlord and/or Tenant. Said insurance may include, but need not be limited to, insurance coverages commonly known as, or similar in kind to, Public Liability, Products Liability, Property Damage, Fire and Extended Coverage, Workmen's Compensation, Scaffolding Act, and such other insurance coverage as deemed required in the sole determination of Comptroller. All policies or endorsements thereto shall in all cases where possible name Landlord as co-insured thereunder.

In event the improvements on the Demised Premises are financed by a loan or loans for that purpose secured by an assignment of Tenant's interest in and to this Agreement, the fire and extended coverage insurance on such improvements shall be payable to such assignee, subject to an agreement (which may be contained in such assignment) that the proceeds thereof shall be applied to the cost of rebuilding, but that if for reasons beyond the control of Tenant and such assignee the said improvements cannot be rebuilt, or if it would be impractical at the time to so rebuild, then the proceeds of such insurance shall be applied first to the payment of any such then outstanding loan and the balance thereof shall be paid over to the Landlord.

Upon determination by said Comptroller of all insurance required, in the forms, kinds and amounts directed to be procured, Tenant shall deliver all policy originals or duplicate originals and endorsements thereto or certificates showing such insurance to be in effect, to Comptroller which shall be appended hereto as Exhibit C.

In any event, Tenant is not to commence to exercise any of the rights and privileges granted under this Agreement until such time as all insurance directed and required to be furnished by Tenant is in full force and effect.

Tenant expressly understands and agrees that any insurnace protection furnished by Tenant hereunder shall in no way limit its responsibility to indemnify and save harmless Landlord under the provisions of this Agreement.

Tenant shall, before commencing construction of Flight Kitchen, furnish to Comptroller a Performance Bond in form similar to City Form No. P.W.O. 62 in the full amount of the Flight Kitchen contract with sureties satisfactory to said Comptroller.

Article XII.

Landlord shall not be liable to Tenant, or to Tenant's agents, representatives or employees for any injury to, or death of any of them or of any other person or for any damage to any of Tenant's property or loss of revenue, caused by any third persons in the maintenance, construction or operation of said O'Hare Airport, its appurtenances, facilities and equipment, or caused by any third persons using said Airport or its appurtenances, facilities and equipment, or navigating any aircraft on or over said Airport, whether such injury, death or damage is due to negligence or otherwise. Third persons as used herein shall include the United States of America, State of Illinois or any of their agencies and all persons other than the City of Chicago.

Except as to the Demised Premises the Landlord reserves the right to regulate, police, and further develop, improve, reconstruct, modify, or otherwise alter said O'Hare Airport and any portion in such manner as Landlord sees fit, regardless of the desires or views of the Tenant.

The Tenant shall assume all risks incident to or in connection with its business to be conducted hereunder and shall be solely responsible for all accidents or injuries of whatever nature or kind to persons or property caused by its operations at said Airport and shall indemnify, defend and save harmless the Landlord, its authorized agents and representatives, from any penalties for violation of any law, ordinance or regulation affecting its operations, and from any and all claims, suits, losses, damages or injuries to persons or property of whatsoever kind or nature arising directly or indirectly out of the operation of such business, or resulting from the carelessness, negligence or improper conduct of the Tenant, or any of its agents or employees.

Landlord shall not be liable to Tenant for damage to property of Tenant or any loss of revenues to Tenant resulting from Landlord's acts, omission or neglect in the maintenance and operation of the Airport facilities.

Article XIII.

the Demised Premises shall be damaged or destroyed by fire or other casualty, the same shall be promptly repaired or rebuilt by Landlord at its expense from, after and only to the extent of insurance proceeds received by Landlord therefor, but Landlord shall not be obligated to repair or rebuild any fixtures, equipment or other personal property installed by Tenant pursuant to this Agreement.

In the event of any damage or destruction by fire or other casualty to the Demised Premises Tenant shall immediately, at its expense, replace and repair any and all fixtures, equipment and other personal property, installed by it pursuant to this Agreement.

Article XIV.

Tenant, its officers, agents, employees, and any other persons over which Tenant has control, shall comply with all lawful rules and regulations and amendments or supplements thereto governing or related to the use of the Airport or of the Demised Premises as may from time to time be promulgated by Landlord in the interests of health, safety, sanitation and good order which are not inconsistent with applicable rules and regulations of any Federal, State or local governmental body having jurisdiction with respect thereto.

Tenant shall at all times faithfully obey and comply with all lawful present and future laws and ordinances of Federal, State or local governmental bodies and rules and regulations lawfully promulgated thereunder, whether or not of the type enumerated, applicable to, or affecting Tenant and its operations and activities in the Demised Premises or elsewhere at the Airport not inconsistent with the provisions of this Agreement.

Article XV.

Tenant covenants not to assign, transfer, not to sublet, license or permit the use of the premises or any part thereof, except to a wholly owned, affiliated or subsidiary company, without the consent in writing of Landlord first had and obtained, nor permit any transfer by operation of law of its interest created thereby. Any such assignment, transfer, sublease, license or permission when and if approved shall be in writing and promptly upon execution thereof, Tenant shall furnish two (2) copies to Landlord for its files.

It is contemplated that the Tenant may seek to finance the improvements designated herein as the Flight Kitchen by obtaining a loan. It is agreed that the Tenant may, without further approval of the Landlord, assign and set over to such lender all of Tenant's right, title and interest in and to this Agreement for the purpose of securing such loan. Any such assignee-lender shall thereupon acquire no greater interest in the Demised Premises than that of the Tenant as herein provided. In event of any foreclosure under such financing, and then only during the initial term hereof, the assignee-lender shall have the further right to assign its interest in this Agreement to a person or company of good reputation and qualified to operate the type of business herein authorized and who will be subject to the same terms and conditions as herein contained.

In the event an assignment, sublease, license or permit to use the aforesaid premises, or any part thereof, is approved by Landlord, under no circumstances shall the income derived by Tenant therefrom exceed the amount of a proportionate share of Tenant's obligations and expenses, under the terms of this Agreement. Landlord expressly reserves the right to assess an extra charge against any approved assignee, sublessee, licensee or permittee hereunder.

It is expressly understood and agreed that the only activity which Tenant may conduct on or from the Demised Premises, directly or indirectly, alone or through others, is only as authorized under the terms of this Agreement.

This Agreement does not constitute either party the agent or representative of the other for any purpose whatsoever.

Landlord covenants that Tenant shall and may peaceably and quietly have, hold and enjoy the premises or space leased exclusively to it during the term of the letting thereof and any extension of said term, unless such term or extension thereof shall cease, close or expire sooner or shall be terminated as provided in this instrument.

Article XVI.

Tenant agrees that in performing under this agreement it shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, creed, color or national origin, nor otherwise commit an unfair labor practice. Tenant further agrees that this article will be incorporated by Tenant in all contracts entered into with suppliers of materials or services, contractors and subcontractors and all labor organizations, furnishing skilled, unskilled and craft union skilled labor, or who may perform any such labor or service in connection with this agreement. Attention is called to the State Acts approved July 28, 1961, Ill. Rev. Stat. 1963, Ch. 33, Secs. 13-1 to 13-4 inclusive; July 8, 1933, Ill. Rev. Stat. 1963, Ch. 29, Secs. 17 to 24 inclusive; and July 21, 1961, Ill. Rev. Article XVII.

This Agreement shall not and will not, nor shall any copy thereof, or any statement, paper or affidavit, in any way or manner referring hereto, be filed in the office of the Recorder of Deeds of Cook or DuPage Counties, Illinois, or in any other public office, by Tenant or any one acting for Tenant and that if the same be so filed, this Agreement and each and every provision hereof shall, at the option of Landlord, be and become absolutely null and void and Landlord may declare such filing a breach of this Agreement.

Article XVIII.

In any of the following events Landlord, at any time hereafter, shall have the right at Landlord's election immediately to terminate this Agreement.

In the event Tenant shall fail to pay the rent in the amounts and at the times and in the manner herein provided and such failure shall continue for fifteen (15) or more days after written notice thereof shall have been given to Tenant.

In the event Tenant shall fail to keep and perform or shall violate the terms, covenants and conditions of this Agreement on its part to be kept and performed, and Tenant shall not have cured or corrected such failure or violation within thirty (30) days after written notice thereof shall have been given to Tenant.

If Tenant shall make an assignment for the benefit of creditors, or shall file a petition in bankruptcy, or shall be adjudged a bankrupt, and such adjudication be not stayed or vacated within 90 days thereafter, or the interest of Tenant under this Agreement shall be levied upon and sold upon execution or shall by operation of law become

vested in another person, firm or corporation because of the insolvency of Tenant; or in the event that a receiver or Trustee shall be appointed for Tenant or the interest of Tenant under this Agreement, and such appointment has not been vacated within 90 days thereafter.

In the event Tenant shall vacate or abandon said premises, or shall permit the same to remain vacant or unoccupied without the consent of Landlord first had and obtained.

Article XIX.

Upon the occurrence of any one or more of the events of default herein specified, Tenant's right to possession of the Demised Premises shall terminate and Tenant shall surrender possession thereof immediately. In such event Tenant hereby grants to Landlord full and free license to enter into and upon said premises, or any part thereof, to take possession thereof with or without process of law, and to expel and remove Tenant or any other person who may be occupying the said premises, or any part thereof, and Landlord may use such force in and about expelling and removing Tenant and said other person as may reasonably be necessary; and Landlord may repossess itself of the said premises as of its former estate, but said entry of said premises shall not constitute a trespass or forcible entry or detainer, nor shall it cause a forfeiture of rents due by virtue hereof, nor a waiver of any covenant, agreement or promise in said lease contained, to be performed by Tenant. Tenant shall make no claim of any kind against Landlord, its agents and representatives by reason of such termination or any act incident thereto.

In addition to terminating this Agreement Landlord may sue for and recover all damages and rent accrued or accruing under this Agreement or arising out of any breach thereof.

Landlord may, if it so elects, pursue any other remedies provided by law for the breach of this Agreement or any of its terms, covenants, conditions or stipulations. No right or remedy herein conferred upon or reserved to Landlord or Tenant is intended to be exclusive of any other right or remedy, and each and every right and remedy shall be cumulative and in addition to any other right or remedy given hereunder, or now or hereafter existing at law or at equity or by statute.

The acceptance of rent by Landlord, whether in a single instance or repeatedly, after it falls due, or after knowledge of any breach hereof by Tenant, or the giving or making of any notice or demand, whether according to any statutory provision or not, or any act or series of acts except an express waiver in writing, shall not be construed as a waiver of Landlord's right to act or of any other right hereby given Landlord, or as an election not to proceed under the provisions of this Agreement.

The obligation of Tenant to pay the rent reserved hereby during the balance of the term hereof, or during any extension hereof, shall not be deemed to be waived, released or terminated by the service of any five (5) day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment or any judgment for possession that may be rendered in such action, or nay other act or acts resulting in the termination of Tenant's right to possession of the Demised Premises. Landlord may collect and receive any rent due from Tenant, and payment or receipt thereof shall not waive or affect any such notice, demand or suit, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Lnadlord may have by virtue hereof.

Article XX.

The Committee on Finance, to which was referred (on November 16, 1964) the Budget Document for the year 1965, submitted a report transmitting said Budget Document to the City Council, revised into the form of the annual appropriation ordinance, and recommending that the City Council revise said Budget Document further by adopting sundry amendments thereto (transmitted with the committee's report), and then to pass said Budget Document, as revised and amended, as the Annual Appropriation Ordinance for the Year 1965.

Alderman Keane thereupon presented amendments to the Budget Document as recommended by the Committee on Finance, together with an amendment concerning page 209 under the caption "Fire Department—Operation of Fire Alarm Telegraph System", which was inadvertently omitted from the committee's amendments.

Yeas—Aldermen Parrillo, Metcalfe, Holman, Miller, Condon, Lupo, Buchanan, Danaher, Zelezinski, Healy, J. P. Alderman Keane raised a point of order that the amendment was out of order for the reason that the effect of the amendment is to increase expenditures and that there is no compensating balancing amendment which would keep the budget in balance between income and expenditures; the effect of the adoption of this amendment would create an illegal budget, which the Council would not have authority to adopt.

Alderman Sperling requested that the privilege of the floor be extended to Mr. John C. Melaniphy, Corporation Counsel, to interpret the State Act applying to the point of order. Mr. Melaniphy stated that the Statute required that in order to increase the budget, the Budget Director alone had the power to revise estimates of revenue according to information he may have received to warrant such a revision and that the amendment would increase expenditures beyond estimated revenue submitted by the Budget Director and would not be legal.

The Mayor then declared the point of order well taken.

Alderman Sperling thereupon appealed from the decision of the Chair. The question thereupon became: *"Shall the Decision of the Chair be Sustained?"* The decision of the Chair was *Sustained,* by yeas and nays as follows:

Yeas—Aldermen Parrillo, Metcalfe, Holman, Miller, Condon, Lupo, Buchanan, Danaher, Zelezinski, Healy, J. P. Burke, Krska, Chew, Murray, Fitzpatrick, Campbell, Janousek, Tourek, Collins, Marzullo, Zydlo, Sain, Ronan, Keane, Sulski, Brandt, Sande, Laskowski, Massey, Cullerton, Shapiro, Kaplan, Goldberg, Bauler, Rosenberg, Fifielski, Kerwin, Wigoda—38.

Nays—Aldermen Despres, Bohling, Yaksic, Scholl, Hoellen, O'Rourke, Sperling—7.

Alderman Despres and Alderman Sperling presented two amendments to the appropriation ordinance; one amendment would require a report to be submitted by all department heads, etc. to the Committee on Finance showing all Federal credits or grants received or administered during the preceding month, including credits or funds received or administered directly from the Federal government and/or the State of Illinois as a grant or disbursement made from Federal funds or grants, etc.

The second amendment would require the filing of reports with the Committee on Finance for public inspection of a detailed list of the number of employes, their positions and salaries, whether or not the position is exempt from the civil service law, the number of persons filling the positions, their status as civil service or temporary employes, etc., which two amendments were at the request of Alderman Despres and Alderman Sperling.—*Referred to the Committee on Finance.*

—

Alderman Despres and Alderman Sperling presented the following amendment to the appropriation ordinance:

After June 30, 1965, no compensation or salary shall be paid to any person in a position not exempt from the provisions of the Civil Service Law who has held his position for a total time of ten years or more under the temporary appointment provisions of the Civil Service Act, stated to be designed "to prevent the stoppage of public business, or to meet extraordinary exigencies."

Alderman Keane moved to *Lay the Amendment on the Table.* The motion to Lay on the Table *Prevailed* (Alderman Despres and Alderman Sperling voting "No").

—

Alderman Despres presented the following proposed amendment to the appropriation ordinance:

No salary or voucher shall be paid to any employee of the City of Chicago who is found by the Mayor to have discriminated on account of race, color, or religion in the employment, assignment, or promotion of any other employee of the City of Chicago. On complaint by any resident of Chicago, the Mayor shall promptly, or on his own motion he may, in person or by a duly designated agent, pursuant to notice and public hearing, make a factual determination as to whether such discrimination has occurred. The provisions of this section shall not apply to employees certified in their position by the Civil Service Commission pursuant to examination and therefore governed, as to hearing and removal, exclusively by the provisions of the Civil Service Act.

After debate, Alderman Joseph P. Burke moved to *Lay the Amendment on the Table.* The motion to Lay on the Table *Prevailed* (Alderman Despres voting "No").
